Student course surveys play an important role in enhancing the quality of instruction at KU. Your responses to this survey are anonymous. Please give them careful attention. The results will be made available to the instructor, the department chair and other appropriate administrators (after all final grades are turned in).

We value your input about the class. Unfortunately, studies have revealed that responses on course surveys can be influenced by unconscious and unintentional biases about race and gender.

KU is committed to diversity, equity and inclusion, so we encourage you to avoid comments about personal

characteristics of the instructor or other students. The survey should take 10 minutes or less, and you will have opportunities to elaborate on your responses.
